RE: Architectural Services Second Floor Buildout

# Dear Angel:

It is a pleasure to submit to you this proposal to provide architectural services for the referenced project. It is my understanding that the scope of the project consists of the design of a conversion of the existing second floor storage space into offices. The total space is approximately 850 sf, with around 500 sf usable office space. The remainder of the space is mechanical equipment. We will provide a new floor plan, additional architectural drawings and details, HVAC and electrical design, coordinate a bid process between contractors, and provide contract administration through construction.

Our services would include all architectural, structural, electrical and mechanical specifications and drawings necessary for permitting and construction. I propose to perform contract administration, which would include site visits, preparation of revised drawings during construction, review of shop drawings, review of pay requests, for the lump sum fee noted below.

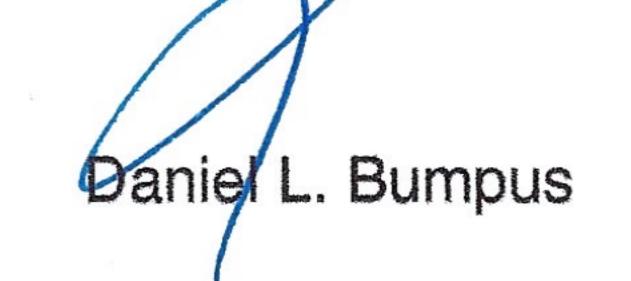

Our fee breakdown would be as follows:

| Architectural                   | \$3,000 |
|---------------------------------|---------|
| MEP engineering                 | 1,500   |
| Total design fee                | \$4,500 |
| Coordination of bidding process | \$1.500 |

| Coordination of bidding process | \$1,500 |
|---------------------------------|---------|
| Contract administration         | 1,500   |

We would ask for payment of design fees when final drawings are complete, and bidding and contract administration when those tasks are complete. We are ready to start within two weeks of authorization, and look forward to a successful building program.

Sincerely,

# ARCHITECTURE INTERIOR DESIGN

**BEFORE ME**, the undersigned authority, personally appeared Jonathan Droor ("Affiant") as Assistant Vice President of MATTAMY ORLANDO LLC, a Delaware limited liability company, authorized to transact business in the State of Florida, d/b/a MATTAMY HOMES, whose principal address is 4901 Vineland Road, Suite 450, Orlando, Florida 32811 ("Owner"), who being first duly sworn on oath says:

1. That Affiant knows of his own knowledge that Owner is the fee simple title holder to certain lands located in Osceola County, Florida (the "Property") and of certain infrastructure improvements on the Property (the "Improvements"), as more particularly described on <u>Exhibit</u> "<u>A</u>" attached hereto, and that Affiant as the Assistant Vice President of Owner, is making this Affidavit in that capacity only, and that no recourse shall be made against Affiant individually.

2. That the Property and Improvements, as described in the Special Warranty Deed and Bill of Sale Absolute and Agreement, dated as of the date hereof, are free and clear of all liens and encumbrances except for those encumbrances and matters affecting title included in the Celebration Island Village, Phase 1A, as recorded in Plat Book 29, Page 151, of the Official Records of Osceola County, Florida (the "Plat").

3. That Affiant knows of no facts by reason of which the title to, or possession of, the Property and Improvements might be disputed or questioned, or by reason of which any claim to any part of the Property and Improvements might be asserted adversely to Owner.

4. That there have been no liens filed against the Property or the Improvements as a result of any labor, materials, equipment or other work authorized by Owner, its employees, or agents or of which Owner has actual knowledge, nor any unpaid bills of any nature as a result of any labor, materials, equipment or other work authorized by Owner, its employees, or agents or of which Owner has actual knowledge either for services of any architect, engineer, or surveyor, or for labor or material that may have been placed on the Property or Improvements, either in the construction or repair of the Improvements, or otherwise in connection with the Property which bills may have been incurred during the last ninety (90) days.

5. That no proceedings in bankruptcy or receivership have ever been instituted by or against Owner, nor has Owner ever made an assignment for the benefit of its creditors.

6. That Affiant knows of no action or proceeding relating to the Property or Improvements which is now pending in any state or federal court in the United States affecting the Property, nor does Affiant know of any state or federal judgment or any federal lien of any kind or nature that now constitutes a lien or charge upon the Property or Improvements.

7. That, except as set forth in the Plat, Affiant knows of no unrecorded easements, liens, or assessments for sanitary sewers, streets, roadways, paving, other public utilities or

improvements against the Property, nor are there any special assessments or taxes which are not shown as existing liens by the public records.

8. That this Affidavit is given for the purposes of inducing the Celebration Community Development District (the "District"), a Florida community development district and local unit of special-purpose government established pursuant to Chapter 190, *Florida Statutes*, to accept the Owner's conveyance of the Property and Improvements to the District.

9. That there are no matters pending against Owner that could give rise to any lien(s) that could attach to the Property or the Improvements between the effective date of the Plat and the recording of the deed of conveyance, and that Affiant shall not execute nor permit the execution or recording of any instruments that would adversely affect title of the Property or the ownership of the Improvements.

Section 1445 of the Internal Revenue Code provides that a transferee of a U.S. real 10. property interest must withhold tax if the transferor is a foreign person. To inform the District and Latham, Luna, Eden & Beaudine, LLP ("LLEB"), that withholding of tax is not required upon the disposition of a U.S. real property interest by Owner, Owner hereby swears, affirms and certifies the following to the District and LLEB that Owner: (i) is not a foreign person, foreign corporation, foreign partnership, foreign trust or foreign estate (as those terms are defined in the Internal Revenue Code and Income Tax Regulations); (ii) is not a disregarded entity as defined in Section 1.1445-2(b)(2)(iii); (iii) is not a non-resident alien (as such term is defined in the Internal Revenue Code and Income Tax Regulations) for the purposes of U.S. income taxation; (iv) has an EIN/Federal Tax Identification Number of 47-2432811; (v) has a mailing address of 4901 Vineland Road, Suite 450, Orlando, Florida 32811. ### Holiday Village 2023 CCDD Submission Narrative

Now Snowing Nightly is a month long event that is marketed throughout the world and has been featured on international Travel shows including half hour specials in both England and Japan. This marquee event draws visitors, both locals and tourists alike, to the area during the holiday travel season and is critical to the local businesses success for the year and long-term sustainability. This annual event has proven a successful investment of high-yield economic impact for Celebration and Osceola County with its ability to draw tourists from out-of-market and attract repeat local residents.

### CDD Santa House and Holiday Village Permit Application Narrative

The Santa House and all-new Holiday Village is designed to expand the current offerings of the existing Now Snowing event. IN addition to the Santa House operations, there will be three additional Holiday Huts (mobile structures) selling holiday themed items and sold by Town Center Merchants (Susan Bona-Tavern, Market Street Gallery.

- 1. Holiday Cookies
- 2. Apple Cider/Hot Beverages (NON alcohol)
- 3. Hot Pecans/Nuts/Etc...
- 4. Santa House Operations-photos with Santa, etc..

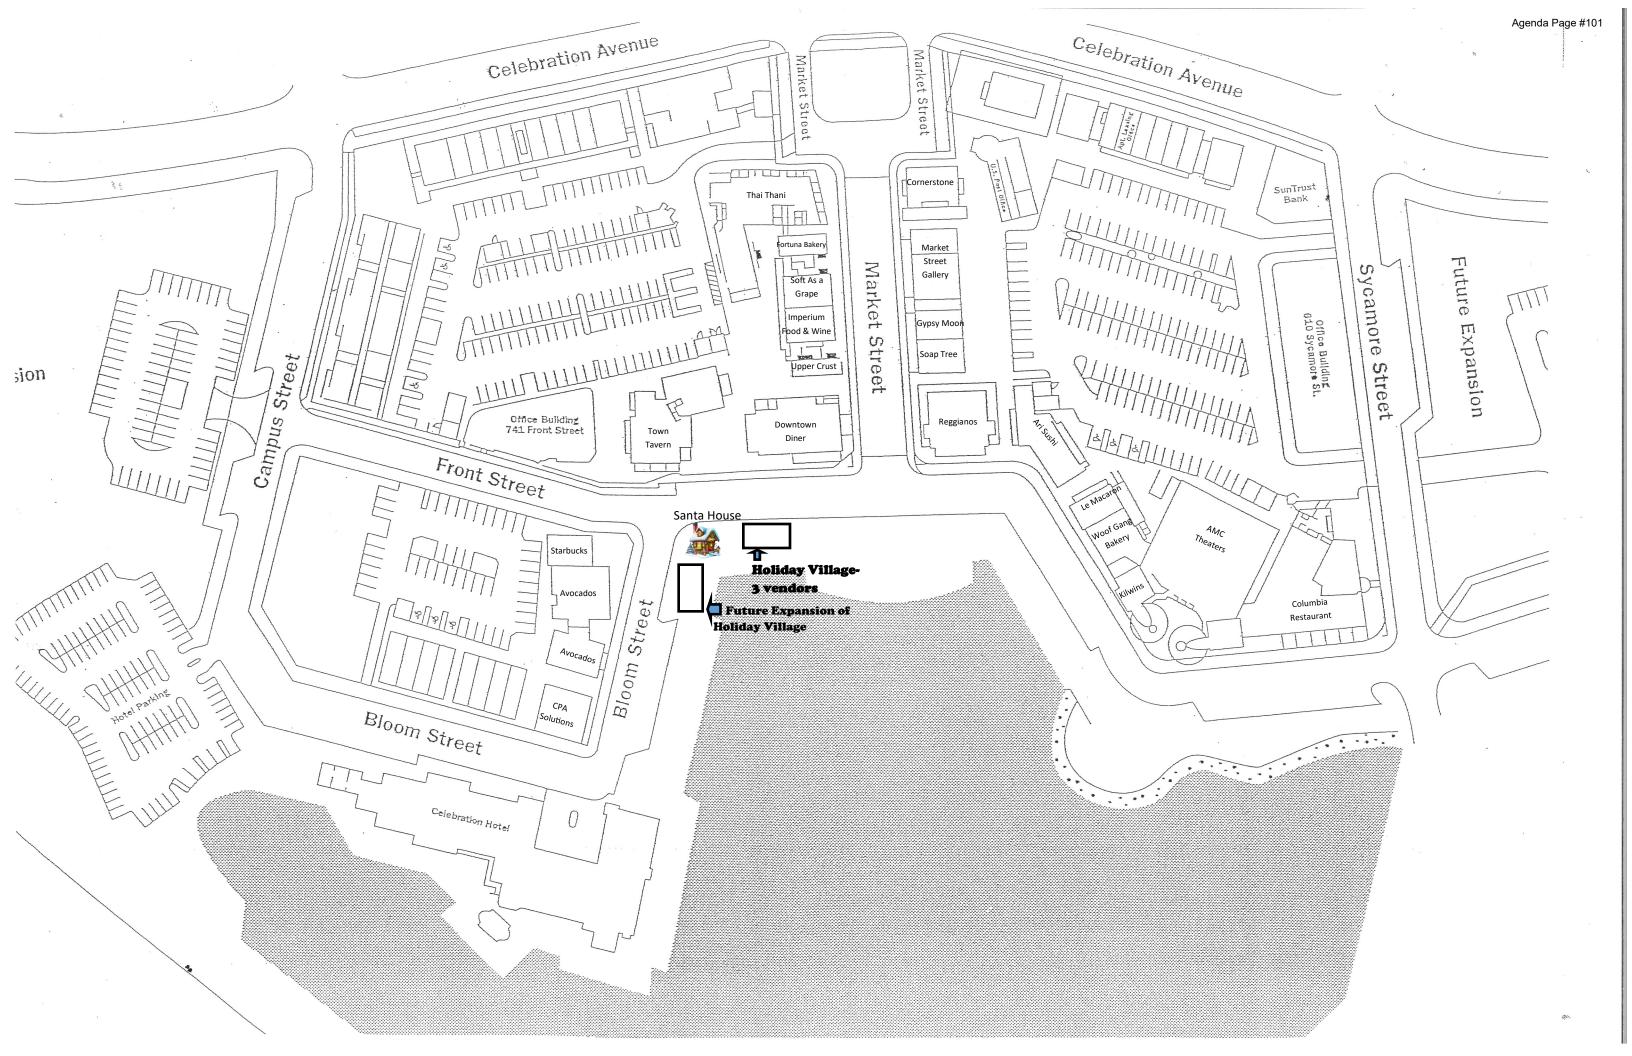

### Security for Santa House/Holiday Village

Santa and employees with direct private contact with children will have a background screening done prior to working.

The Santa House is enclosed and when open is staffed, so security for Santa House is provided internally, however, there are multiple Sheriff's Officer and private security officers at adjacent Now Snowing venue.

### **Related Event Security**

Now Snowing has a minimum of one Sheriff's officer on slower nights, and 3 on busiest Nights (Friday-Sunday), one of which includes a traffic control officer for the busiest intersection at Campus/Celebration Ave. In addition, on busier nights or special event nights, private security supplements the Sheriff's Officers present. These officers are in addition to the Tri-party agreement officers who will be downtown throughout the event. Additionally, numerous vendors and their employees are throughout the streets offering an additional layer of security.

Subject: Holiday Village CDD Permit Application

Angel,

I hope you are doing well. I have attached a map of the proposed placement of the Holiday Village for the Now Snowing event. We have decided to move this proposed idea back nearer to the area where the Santa House previously was. The three vendors would operate under the shade structure next to the proposed location for the Santa House. This would provide them with protection from rain, power, etc... Although Holiday/Now Snowing/Christmas Décor for the CCDD side of the street typically runs us \$7800-\$8500, we only charge the CCD a flat fee of \$5000 and absorb the rest each year. We believe the minimal power usage the Holiday Village would more than be covered by the discounted décor charge we offer annually.\

Thank you, Mike

Hi Angel,

Last month Kathy Gordy addressed the group requesting a radar traffic device be placed along Celebration Ave entering Artisan Park.

Russ was going to look into getting a temporary device.

I expressed an interest in the CCDD purchasing a permanent device for this location.

Can you include this as part of our agenda for the upcoming meeting?

Thanks,

Jack

Hello,

No changes to report. We will continue on the once a month sweep schedule. We will continue to spot sweep every few weeks as we see any areas that need it!

Thanks!

#### August 2023 Monthly Report

Submitted by: Clarke Environmental Mosquito Management

Prepared by: Crystal Challacombe 3036 Michigan Ave.

Kissimmee, FL 34744 www.clarke.com

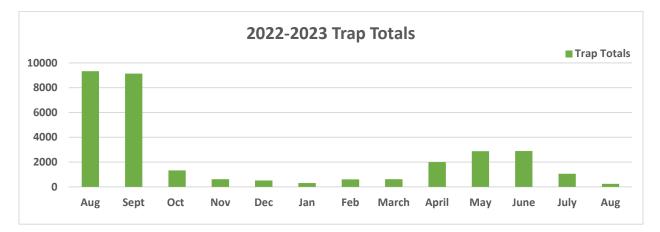

#### **Surveillance**

In an integrated mosquito management (IMM) program, surveillance is utilized for monitoring mosquito populations over time to understand local species mix, breeding habitats, population levels and the potential for arbovirus disease cycles. As Celebration has opted into Clarke's EarthRight® program, surveillance is conducted using Biogents traps and landing rate counts.

Biogents traps are specialized traps set in pre-determined locations to gain insights into mosquito counts, species, population dynamics, activity patterns and the presence of disease.

Landing rate counts are a way of determining how many mosquitoes are actively biting in a given area.

| Number of Landing | Biogent Traps Set- |
|-------------------|--------------------|
| Rate Counts       | Up & Collected     |
| 104               | 50                 |

#### **Adult Mosquito Control**

As an EarthRight® community, Celebration has opted to make their adult mosquito control efforts more sustainable by applying Merus® for 10% of their ultra-low volume (ULV) treatments. Merus is Organic Materials Review Institute (OMRI) Listed and meets the USDA's National Organic Program (NOP) standards for adult mosquito control in and around organic gardens, farms and over crops.

The remainder of ULV treatments will be applied using AquaAnvil® and AquaHalt ®, waterbased formulations with crop tolerance and residential area use labeling.

#### Adulticiding

ULV treatments are performed as necessitated by surveillance data indicating nuisance population levels or potential disease and as permitted by weather conditions. Schedule is subject to change.

| Miles Sprayed |  |
|---------------|--|
|               |  |
| 397.6 miles   |  |
|               |  |

#### **Backpack Barrier Treatments**

Barrier treatments performed via backpack sprayers apply mosquito control products to vegetation (landscaped plants, foliage, tree lines, etc.) where adult mosquitoes like to rest. This treatment has a residual effect of 10-14 days, killing mosquitoes on contact.

| Number of<br>Treatments | Dates            |
|-------------------------|------------------|
| 2                       | 8/14/23, 8/28/23 |

#### **Inspection and Larval Mosquito Control**

As part of IMM best practices, larvicides mosquito control products are used to control mosquitoes in their larval stage. They are applied directly to the water sources where adult female mosquitoes lay their eggs and work to prevent mosquito larvae from becoming flying, biting adults. Known and resident-reported standing water sites are inspected monthly to determine the need for larviciding.

#### Larviciding

As an EarthRight community, Celebration's larviciding efforts are conducted utilizing Natular®, an OMRI Listed product designated as Reduced Risk by the U.S. EPA. Natular has also been tested to demonstrate efficacy on twenty of the most common vector and nuisance mosquito species, including *Aedes, Anopheles* and *Culex*, making it an excellent tool to suppress mosquito populations before they hatch while helping avoid or fight resistance.

| Sites Inspected | Fly Traps Installed | Catch Basins<br>Treated |  |
